

BOOT ICE PDIP 1.0 contents
1 title & notes
2 schematic
3 parts placement top
4 parts placement bottom
5 copper artwork 1x
6 copper artwork 1x mirrored

Notes:

All passive parts are 1206 footprints.
D3,top jumper wire, and R8 are for nSRST support which currently does not do much. These parts could be omitted. Perhaps a future Rev?
