This page makes the outer cover of a true-sized Cartridge Box for 50 .32-20 rounds. It will fit over current Winchester inner boxes. Page 2 makes the inner box if you need it. Print on the heaviest card stock you can pass through your printer. I use a light poster board from the art store, cut to 8.5x11 inches. Cut out, fold and glue. It makes a good stiff box.

Cut the end tabs all the way to the paper margin for more secure closure.
